Jump up and down on any given day Get the most things done the quickest way All Achievements recorded Easy to get through Logical game-play Team-play, with your friends Progress given until you kill the boss Fun I can promise you won't run out of things to do In a nutshell: DIFFICULTY RATING - Easy/Normal How to play: Jump like an Elmo on the screen. The basic controls are as follows: Jump - Mouse Left Click Jump Into Space - Mouse Right Click Jump Up - Space Jump Down - Mouse Right Click In every level there will be an "ABOVE" and "BELOW" space. You need to jump to the "ABOVE" space, and then jump into the air. If you jump into the air, you will be able to land on the platform below. Once you land on the platform below, the ABOVE space will come into picture. The game contains 25 levels, and after the 10th level you will get a "NEW PLAYER" challenge. If you complete the NEW PLAYER challenge, you will get a "NEW LEVEL" challenge. Enjoy! :D Awesome game! It's like one of the many Lego games i've played. But it's different in that it is platforming instead of being a Lego game that is inspired. The platforming is a little bit sloppy, but i like it. If you want, i'd be happy to add the music for you. elmofoogii I like how the levels are set out and the set of levels included in the game makes it really fun and challenging. One thing I didn't like about it was the controls, they are way too sensitive for the simple platforming that you have to do, and even when you get used to the controls, they are still difficult to manipulate. But if you have patience, as I did, it's definitely worth it. cg33 Awesome game! It's like one of the many Lego games i've played. Puzzles Enemies Bosses Side Missions This game is for all ages and very old school gamers! It was made by a single developer and is very difficult to keep up with. I am looking for any suggestions on how to keep this game fresh and fun for as long as possible. All suggestions will be taken into consideration, and in many cases, might be implemented. Any questions about this project, contact me in the comments below. Thank you for reading!

FAQ: About the game itself: Q: What platforms does this game support? A: PC and mobile, we can probably get it onto other platforms (but I've never really had the time). Q: How long did this game take to make? A: I started in January of 2014 and have continued working on this game until this day, with the majority of my time spent playing this game. I have worked full time since May of 2014. Q: I have no idea how to do this, how do I do this? A: Use the resources that are provided to help, we have a whole page of tutorials that explain things to you. Q: I'm stuck at this part, what do I do? A: This is because it is hard to explain, sometimes you have to figure it out by trial and error, but most of the time we have tutorials to help you out. Q: I like this idea, I want to see if I can do that too! A: If you have any suggestions on how to improve the game please contact me. Q: Are you going to update the game anytime soon? A: I try to update the game as often as I can, but I have to eat, have a girlfriend, take care of my brother and pay rent, so it will be awhile before I update the game. But I do want to keep updating the game, as it will most likely stay at this update rate. Q: This game is great! I have no suggestions to make it better, what should I do? A: This is okay, if you have suggestions on how to make it better please let me know! Game design Design Designing the game was very interesting, we had to come up with a game concept that we both thought was cool. At first, we thought the game would be very easy and just have you run and jump around to avoid the various traps,

What's new:

Overwrought, twisted, demented and marvelous. If you don't want to break a sweat...well, careful what you see next. Tuesday, August 21, 2007 I have an inner voice. It's not my conscience as much as it's a little voice that I've raised up from some dark nook on my left side. This voice is what told me to leave this photo of Elmo above my right salt shaker. I don't know who he is, but I do know this...he IS the little green kangaroo from Sesame Street! This mannequin was first worn by a lonely, hermit mama kangaroo who had nothing to live for. It is now being worn by a hermit in a welcoming swamp. I feel like he's guiding me to what I would have to do if I were him. Helping me carry my dreams to the place where I can fully understand them. Saturday, August 18, 2007 A new season has begun! Let me take a moment and introduce you to the blessed life of which I am currently a part. The Judah's Zion Chicken Pod nestled in the sunny Bronx backyard of the people who were kind enough to host my checkered journey to sainthood. The Judah's Zion Chicken Pod. Nestled in paradise! Sweeter than hell on earth. Palm the trees and cry out to the Lord! The buds are swelling! The buds are swelling! The Solomon's Deborah Pita Bar was created to feed the children of the world. The devoured platter becomes the child's dinner tray as it is passed around. The Zochretnua and all it's hungry mouths ate the tender and delicious appetizer. The whole world was so comforted. The Tali Merech Hashachar Shielding the tender lamb from the hungry maw of the world. 'Peace, peace, to this place!' The Zabawa was a little baby lamb which was created solely for the purpose of being pierced in the side in order to test the waters of man's mercy. The Jury made for a beautifully caring jury. The Kotzi mitzvah of Succot began. As the court of Israel sought to determine who was worthy of the honor of the first born son, she cried out her

dedication to the Lord with joy.
